

Running $\frac{dh}{dt}$ Example

Andrew Kenneth Melkonian

May 26, 2015

Instructions:

- 1:** Enter the command “python aggregate.py ref_dem.txt . rr 1”. This will create “glacier_elevs_1.txt”.
- 2:** Enter the command “weightedRegression.py glacier_elevs_1.txt glacier_dhdt 1999 2015 5 30 first”. This will create “glacier_dhdt_p5m30.txt”.

Further Information:

Please read the documentation for “aggregate.py” and “weightedRegression.py”.
